

CV5 2.5" Series Solid-State Drives | SATA 6 Gb/s

Lite-On SSDs Move at the Speed of You

Stop waiting for application load times. Do more by running your system longer, faster and more efficiently.

FAST CONSISTENT PERFORMANCE

Lite-On's CV5 2.5" Series Economy Solid-State Drive with the SATA interface boosts your device's performance by accelerating application responsiveness, increasing productivity, and improving power efficiency. This simple upgrade delivers superior speed at a random read performance of up to 85,000 IOPS and a write performance of up to 75,000 IOPS. With quick response times, a Lite-On SSD will keep pace with your busy lifestyle.

The CV5 series SSD adopts the low-density parity-check (LDPC) algorithm. By implementing the controller's LDPC error-correcting technology, this extends the drives endurance with TLC Flash as much as 33%, hitting reliability levels only attainable with MLC flash. The blazing-fast writes are achieved by intelligently treating certain memory cells as premium single-level-cell NAND for maximum speed. When, during idle time, data in those cells is stashed away to fully exploit the capacity benefits of TLC flash.

Operating more efficiently than traditional HDDs, the CV5 2.5" consumes less power, which extends your system's battery life.

THE FIRMWARE ADVANTAGE

Our dedicated engineers work closely with high-grade chip manufacturers to develop solutions particular to your needs. Lite-On SSDs are already an industry-leading product, and with Lite-On's customized proprietary firmware, your Lite-On SSD will provide superior performance at consistent speeds for years to come.

FEATURES

- LOW-DENSITY PARITY-CHECK (LDPC) SUPPORT
- HIGH PERFORMANCE
- LOW POWER CONSUMPTION
- RELIABILITY
- CUSTOMIZED FIRMWARE
- AVAILABLE IN 128/ 256/ 512 GB CAPACITIES

APPLICATION WORKLOADS

- EVERYDAY USAGE
- GAMING
- MULTI-MEDIA AND VISUAL EFFECTS EDITING

CV5 2.5" Series Solid-State Drives | SATA 6 Gb/s

Technical Specifications			
Model Name	CV5-CQ128	CV5-CQ256	CV5-CQ512
Capacity	128 GB	256 GB	512 GB
Performance			
Sequential Read/Write¹	520/160 MB/s	520/320 MB/s	520/ 450 MB/s
4K Random Read/Write¹	60K/34K IOPS	80K/68K IOPS	85K/75K IOPS
Compatibility			
Host Interface	SATA		
Form Factor	2.5" (100mm x 69.85mm x 7mm) @ 60g max		
Reliability			
MTBF²	1.5 million hours		
Features			
ECC	LDPC Gen 3		
S.M.A.R.T	Supported		
TRIM Command	Supported		
Password Protection	Supported		
Dimensions and Weight			
DEVSLP	2 mW (0.002 W)		
Typical (DIPM Enable)	0.25 W		
Environment and Reliability			
Operating Temperature	0 to 70° C		
Non-operating Temperature	-40 to 85° C		
Power-on Ready	300 ms		
Resume from DEVSLP	100 ms		

Specifications subject to change without notice.

1. Based on internal testing, performance may vary depending on host device, OS, and application.

2. MTBF – Mean Time Between Failures based on parts stress analysis.

Lite-On Storage is a Strategic Business Group (SBG) of Lite-On Technology Corporation.

Lite-On Storage is a global leader in the design, development, and manufacturing of Solid State Drives (SSDs) and Optical Disc Drives (ODDs).

Lite-On Storage offers customized solutions and superior firmware to PC Client, Industrial Solutions, Automotive, Enterprise, and Cloud Computing environments. All Lite-On SSDs are designed and developed 100% in-house at their state-of-the-art facilities in Taiwan.
